Design Theory & Practice

Adobe Illustrator: Curves

Studio Assignment

Assignment

Drawing Curves with the Pen Tool

Supplies Needed

You will need the following for this assignment:

- Curves.ai File (provided)
- Adobe Illustrator CS5 (provided)
- Black & White Laser Printer (provided)

Creative Process

1. In Adobe Illustrator, Open the “Curves.ai” document.

2. Using the Pen Tool draw each object.

Notice that the Anchor Points are positioned for you on the template.

Place your Anchor Points on top of the points indicated on the template.

The first object also illustrates the direction to pull the Directional Handles.

3. Type your name on the document.

4. Save the document:
ksmithlesson7_001.ai

5. Print out this document when you have drawn the objects to your satisfaction.

6. Hand in a copy by the end of the class period.
