

ANM 104 Design Theory & Practice

Digital Dueling Rhythms

Assignment: portfolio piece

Assignment Description

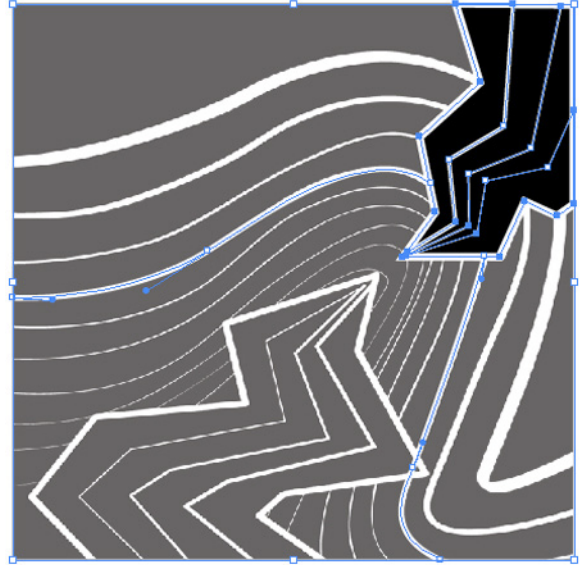

Digital Dueling Rhythms

Using Adobe Illustrator create a digital vector version of your own Dueling Rhythms design.

Supplies Needed

You will need the following for this assignment:

- Good Quality Scan of your Dueling Rhythms Design
- DuelingRhythms.ai File (Provided)
- Adobe Illustrator CS5 (Provided)
- Black & White Laser Printer (Provided)

Creative Process

1. Scan your own original Dueling Rhythms Composition that you created earlier this semester with traditional media.
 - Save it full scale at a minimum of 150 PPI.
 - Name your file: your first initial and last name_drtemplate.jpg
2. Open the DuelingRhythms.ai file in Adobe Illustrator.
3. Make sure the following palettes are open: Layers Palette, Swatches Palette and the Stroke Palette.
4. Place your scan into the document in the "template" layer of the Layers Palette.
5. Using the Pen Tool draw each line and closed object, stroking and filling them accordingly with either Black or White.
6. Utilize the Layers Palette to organize the lines and closed objects so they appear correctly from back to front.
7. Save the file every 15 minutes as you are working. Name your file with the following protocol:
Your first initial and last name_lesson7_002.ai (Irzoskalesson7_002.ai)
8. When completed save the file in the class folder and on your USB drive.
9. Print the file to the Splash printer in the CNM Computer Practice Lab.
10. Hand this into me at the beginning of next weeks class session.
